

SALT LAKE DAILY HERALD

TUESDAY MORNING, MAR. 30, 1880.

THE DAILY HERALD is published every morning, except on Sundays, at the office of the publisher, at the corner of Temple and Main streets, Salt Lake City, by the HERALD PUBLISHING AND PRINTING COMPANY. Subscription price \$10.00 per annum, in advance; single copies, 10 cents. The HERALD is published every Wednesday and Saturday morning, at \$3.00 a year, postage included; parts of a year at the same rate.

THE WEEKLY HERALD is published every Thursday morning, at \$2 a year, six months, \$1.25, postage included. Postage outside the U.S. and Canada, extra.

PLANS ARE under discussion, in Washington, for maintaining the circulation of fraction silver currency.

SEVERAL CONTRIBUTIONS concerning the canal and on other topics are crowded out of this morning's HERALD.

EX-CONGRESSMAN LUTHER, of California, is in Washington, trying to get a patent for a mine said to be located on an Indian reservation.

THE COLORED CITIZENS of Providence, R. I., who claim to cast 600 votes, are striving to obtain a representation in the legislature and a repeal of the intermarriage prohibition.

AMERICA is sending grain to Russia, the greatest wheat-growing country under the sun. War has its benefits. The United States has reaped and is reaping a rich harvest from the late disputes in eastern lands.

THEY APPEAR to appreciate Parnell, the educated Keweenaw, in his own country. On Saturday he attempted to address a crowd of Irishmen, and was driven off the platform by a shower of stone eggs.

It is said that the Schurz-Ute agreement bill will meet strong opposition in the House committee on Indian affairs. A bill is to be introduced in the Senate providing for settling Indians upon lands in severalty.

THE NEW YORK Observer claims a premium of \$100 to student in theological seminaries for the "best essay designed to counteract any one of the many forms of assault upon Christianity by modern infidelity."

IN TEXAS the Presbyterian women are preaching, as the new book of discipline provides that nothing shall be called an offense or admitted as an accusation which cannot be proved to be such from the Scripture, as interpreted in the standards of the church.

THE NEW YORK Sun is of the opinion that the Salvation Army should have remained in England and worked with the sinners there, instead of coming over here and attempting to get up a revival. The Sun is correct in this, as it is in pretty nearly everything else.

GRANT has not yet withdrawn from the presidential race. He found the opposition to him in particular, and the third time in general, was so much of a boom on his return from Mexico, that he was in a measure nonplussed. As soon as he recovers and becomes able to act intelligently, he will get out of the way of everybody.

THE SAN FRANCISCO Alta says that within the last five years that city has spent \$55,000,000, collected by assessments on mining stocks, for work that has not paid \$5,000,000, and, with all its field and present true value, is not worth \$10,000,000. More than 80 per cent. of the expenditure has gone into mines that have never paid a dividend, and 10 per cent. more has gone into other mines, in which the assessments have exceeded the dividend.

THE TROY Press (democratic) calls upon Senator Hill, of Georgia, to disprove the allegations against him if he can. It says: "He cannot plead in this instance that the matter is private, for it is not. The charge is that he has secured appointments in the government departments for two or three relatives of a woman with whom he holds improper relations. It is alleged that these appointments were the price of a woman's honor—that, in fact, he is putting his hand into the public treasury to pay for his immorality."

THE NEW spelling is to be introduced in all the Prussian schools on April 1st. All new school books are henceforth to be printed with the reformed spelling, and no educational works with the old spelling will be permitted to be used in the schools after the lapse of a certain interval. The governments of Austria, Bavaria and Wurttemberg had adopted the new spelling some little time before that of Prussia. With the exception of one or two limited classes of words, the reformed orthography has already received the adherence of the leading organs of the daily and periodical press.

TWO MEMBERS of Congressman Wright's labor committee that visited the west last summer do not agree with the chairman and other members in attributing the unsatisfactory condition of affairs in San Francisco to the presence of Chinese. The minority report, as published in the HERALD, finds that other cities where there are no Chinese, have had times for the laboring classes, and that, while the Mongolians, in working for less wages, unquestionably have some effect upon white workmen's pockets, the extravagance, speculation, and in fact the shouldering of more than they can carry, are the chief causes for the troubled state of things at the Golden Gate. The Chinese get more blame and credit than they are entitled to.

THE Hour records the remark of a sagacious Scotchman, not long ago, after completing the round trip to and from the Rocky Mountains, "Dye know that my travels in this country led me to the conclusion that the polished and cultured portion of the American people develop a remarkable faculty for staying at home?"

LATEST TELEGRAMS.

FORTY-SIXTH CONGRESS.

REGULAR SESSION.

SENATE.

Washington, 29.—The response of the secretary of state to the Senate resolution calling for information concerning action under the Spanish claims treaty of 1819, was referred to the committee on foreign relations. Allison and Teller gave notice of amendments to the Ute treaty bill. Ordered printed.

Kennan's bill for an international exhibition on the anniversary of the recognition of American independence in 1823 was discussed. Thurman approved the plan. Eaton, from the committee on appropriations reported with amendments the immediate deficiency appropriation bill. Calendar, it appropriates \$507,000 for United States marshals and deputies, and \$300,000 for the government printing office.

Kirkwood presented the memorial of the Iowa legislature protecting the innocent users of patent articles. Cameron presented the memorial of the Wisconsin legislature for Wright's plan of improving the Upper Mississippi and its tributaries. By Cockrell, for opening direct trade between the states of the Mississippi Valley and Brazil.

Coke said in view of the important amendments to the Ute bill he would not ask a vote on it this morning, but moved its consideration to allow Teller to speak upon it. Cockrell desired consideration of the calendar. Thurman the General award bill and McPherson the bill for a board of survey and the completion of the double tunnel.

The legal tender bill was taken up. Thurman moved to strike from Hoar's substitute the clause instructing the court of commissioners to allow, as second class, claims for the payment of premiums for war risks. A discussion ensued as to the exclusion of war premiums, in the course of which Thurman said: "There is likely to be several millions left in the treasury of the General award after all the claims made by the tribunals are paid. He did not believe we were under moral obligations to return the remainder to Great Britain. He thought it should be distributed to first class owners; then, if a surplus remained, to those whose property was destroyed by captured cruisers."

Thurman retorted that it was not patriotism, but business to sail their ships, even at a loss, rather than let them rot in the harbor. During an extended colloquy between Blaine and Thurman, the latter suddenly raised his hand to his forehead and seemed about to fall. He was helped into the cloak room. Thereupon the subject was dropped and the resolution for a board of survey on double-tunneled monitors was amended and passed.

HOUSE.

Washington, 29.—A bill was introduced prescribing the manner of guaranteeing a republican form of government for states. It provides that where the authorities of any state cannot decide without an appeal to force, which of two bodies is the legal legislative body, the President shall communicate the fact to the Senate, which shall settle the question.

By Robertson, for strengthening the Mississippi levee; also reaffirming and applying the Monroe doctrine. Following is the text: "Whereas, The warm streams of the Atlantic, before entering the Gulf of Mexico, strikes against the eastern coast of the isthmus of Panama, and would continue to the Pacific but for the existence of that narrow barrier, Whereas, After leaving the Gulf it flows across the Atlantic past Great Britain, creating the temperate climate of that country which otherwise would have the cold climate of Labrador."

Whereas, It is an admitted scientific fact that a tide level canal of sufficient width across Panama would change the course of the Gulf stream and thereby freeze out the English speaking nation, Whereas, The United States would thereby lose its chief foreign market, which loss would not be counterbalanced by the new markets opened by the interoceanic canal; therefore Resolved, That we emphatically reaffirm the Monroe doctrine, and that we will bring it to bear against the inhuman designs of France in this attempting to destroy her chief European rival and injure the commerce of the United States.

The joint resolution was referred to the committee on inter-oceanic canal. By Hawley, proposing a rule that each bill or resolution shall properly express its intent in the title, and shall treat of only one subject, and a bill amending the Revised Statutes shall recite the statute to be amended.

By Morton, to secure a uniform standard of values. It recites that a double standard exists, and that the standard silver dollar ought to have equality with the unit of value; and enacts that gold and silver legal tender coins shall hereafter be interchangeable at their lawful value in the New York sub-treasury for a sum of \$100 or multiples thereof, and directs the secretary of the treasury to have the necessary amount of standard silver dollars coined to meet the demand therefor, and repeal the law fixing or limiting the amount of coinage of silver.

By Warner, to revise the revenue. By Ward, for a commission to consider the promotion of inter-state commerce.

By Dibble, regulating the compensation of congressmen. By Downey, giving territories one member each of the House of Representatives.

By Davis, California, a bill organizing Alaska and providing a civil government therefor. By Price, prohibiting the chairman of the committee of the whole from entertaining pro forma amendments.

The House went into committee of the whole on the consular appropriation bill. An amendment striking out a clause appropriating \$20,000 for charge d'affaires and diplomatic officers abroad was defeated.

Blackburn offered an amendment deducting half of the annual salary of any minister who shall be absent for four months or more any year from his post. Rejected—55 to 70. Also a resolution directing the pay for the time any minister is absent from his post; rejected. Also decreasing the salary of the secretary of the legation at China from \$5,000 to \$2,500; rejected.

Also preventing the payment of salary to any diplomatic agent not mentioned in this bill. Nais defense in the Forty-fifth Congress of Bailey, consul general at Shanghai, because he believed false the charges he now knew true. Adjourned.

WASHINGTON NOTES.

Washington, 29.—The senate committee on railroads held a special meeting on Thursday, March 26th, at 10 o'clock, to consider the bill for the Texas Pacific Railroad, which will be heard in advocacy of the bill to extend the time for its completion.

At a meeting of the House committee on private land claims, today, Representative Barrows, of Michigan, as a sub-committee on the San Juan bill, reported it back to the full committee favorably. His written report upon it is substantially a repetition of the arguments heretofore submitted in its advocacy by the attorneys of the so-called San Francisco Land Association of Philadelphia, which claims to have purchased the San Juan title in good faith and which, during the last three Congresses, has persistently but thus far unsuccessfully, endeavored to procure the passage of the pending bill. It provides, as will be remembered, for the readjustment of the whole question of the validity of the San Juan grant, which covers the greater part of San Francisco, upon the condition that the said claimants shall previously convey to the city authorities, as trustees, a full relinquishment of the title in favor of the present holders of title property, the alleged purpose being to lay the foundation for subsequent relief by Congress in the shape of land grants or other indemnity for the alleged injustice of the Supreme Court's rejection of the grant. It will also be remembered that this readjustment is asked for on the strength of alleged newly discovered evidence, consisting mainly of what purports to be a book of records discovered at Santa Barbara a number of years after the Supreme Court had finally pronounced the grant a forgery. Representative Paehco, who is a member of the committee, today, expressed his decided belief that this so-called evidence is spurious and manufactured, and insisted that, aside from the grave questions of public policy involved in the proposed reopening of such a long and settled question, the bill should be rejected as a fraud. The committee, however, seemed to be greatly impressed with the showing made by the claimants, and although by the adjournment, to-day, it went over to next week, the committee's action all points strongly towards a decision to report the bill.

Some Mistake.

Washington, 29.—Inquiries made in official circles, to-day, regarding the allegation that certain American ships of war were engaged in making soundings and surveys in the vicinity of the Isthmus of Panama, elicited replies that no American vessels had been ordered to make surveys in that locality; that charts of the waters adjacent thereto have been in the possession of government for some years past, and that no instructions have been given American vessels to do anything in the locality mentioned which would be distasteful to the Panama government. The statement of one official on the subject of the alleged American mission of war, in the vicinity of Curipual, naturally excited suspicion just at this time, owing to the much-talked-of isthmian canal project. He intimated that there was no cause for any feeling on the part of the United States. Secretary Thompson said, to-day, he had heard nothing of sending a man of war to Southampton, to convey the King of Siam to the United States.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every-day life we are apt to overlook the dangers attending it, and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had *Bosch's German Syrup* been taken, a cure would have resulted and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs *Bosch's German Syrup* has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 350,000 bottles sold last year without a single failure known. J20

Palmer, Detroit, Mich.; Z. B. Rosenbaum, W. A. Tisdell, Omaha.

700 after 200.

San Francisco, 29.—Tucson dispatch: The following command have been sent from Arizona to report to General Hatch, with a view to the pursuit of the Indians under Victoria. Captain McCallan, with company L, Sixth cavalry; Lieutenant Gieswood in command of the company of Indian scouts, and twenty-five men of the Sixth cavalry; and Lieutenant Miller in command of fifteen soldiers of the Sixth cavalry and one company of Indian scouts. Victoria is reported to have 200 warriors and is now east of the Rio Grand. The entire command of General Hatch in the field will not exceed 700.

The Opposition.

San Francisco, 29.—The newspaper war against the proposition to abolish Wells, Fargo & Co.'s letter express still continues. The *Daily News*, *Virginia City News*, *Idaho News*, *Oregonian*, and *Standard*, of Portland, Oregon, attack the proposition strongly; also the following weekly journals of the state: *Grass Valley Tidings*, *Truckee Republican*, *Deer Creek*, *Trinidad*, *Elko*, *Elko News*, *Argus*, *Altogether*, *Chico Record*, *Napa Register*, *St. Helena Star* and *Salt Lake Republic*. Petitions to permit the company to continue the business across the state have been signed throughout the state.

The Sequence.

San Francisco, 29.—Santa Rosa dispatch: George W. Roney was shot and killed by G. H. Hayes, on Saturday night, while attempting to enter the house of the latter. Letters purporting to come from Mrs. Hayes induced Roney to make the attempt. W. P. C. for Sonoma County and a delegate to the workingmen's state convention last summer.

A Fine Assortment of Programs and Ball Cards at the Herald office

DIED.

ROBERT—At her residence in the Sixteenth Ward, on Sunday morning, March 28th, 1880, at ten minutes past five a.m., Betsy Quincy Roundy, widow of the late Shadrach Roundy, former bishop of the Sixteenth Ward.

Deceased was born in the town of Lunenburg, Essex County, State of Vermont, on the 29th day of June, 1783. Was baptized by Elder Oron Hyde in the year 1802 passed through all the trials and tribulations visited upon the saints, without murmuring, firm and unflinching to the faith she had embraced, ever ready to share her bread with the hungry, to comfort the afflicted and succor the distressed. She was the mother of ten children, had seventy-one grand children, and seventy-three great-grand children; she had taken to raise ten orphan children, and had been instrumental in the adoption of a mother's part to them. During the past three years she had been severely ill, being almost entirely helpless for twenty-one days she had been bed-ridden and unable to partake of food, yet without complaining she was quite contented, and at several times made signs that she wished that she were free for the sick, earnestly desiring to be healed; at last she passed quietly away, and will now sleep until the resurrection in the just—10 m.

Funeral services at the Sixteenth Ward school house Tuesday morning, March 30th, at 10 a.m. Friends of the family are cordially invited to attend.
